

Patrick Sheridan

Full Stack web developer with a diverse background in environmental science, research, and marketing. Dedicated to improving the world one line of code at a time.

Experience

ISoftStone Inc.

February 2021 - May 2021

Software Development Engineer (React, Accessibility):

- Developed applications with Microsoft backend engineers to address and expand Web accessibility and create new tools for interacting with the internet
- Leveraged new technologies, such as Azure Cognitive Service, to solve Web accessibility issues

Fluke Corporation

October 2018 - November 2020

Front End Developer for Thermal Imaging, Fluke Digital Services:

- Managed projects for the timely execution of global Fluke NPIs
- Consulted with various developers in support for Fluke IG, Fluke Calibration, Fluke Networks, and Amprobe via various CMS's including Drupal and Shopify
- Collaborated with various stakeholders to provide customized online solutions to unique requests, ensuring high-performing, mobile friendly landing pages
- Created and localized global email marketing campaigns in Eloqua
- Revised company-wide JavaScript code, including, but not limited to, GDPR compliance and internal company scripts

October 2017 - October 2018

Web Developer (DevOps):

- Maintained and edited content on Fluke's 63 international websites
- Established standard work for Fluke systems and led training of new hires in Drupal, Shopify, Clickability, PCAT, Eloqua, and Microsoft CMS 2002
- Contributed to the expedited website migration from legacy systems into Drupal

CodeFellows Seattle

January 2017 - June 2017

Student (fulltime):

- High intensity coding bootcamp focusing on mastery of the MEAN stack
- Collaborated with others passionate about coding to realize projects and continue development of team management skills

U.S. Forest Service, Arapaho National Forest

April 2016 - September 2016

Biological Science Aid (GS-2):

- Elimination of harmful, invasive plant across hundreds of acres of the Arapaho National Forest in collaboration with other government agencies

LabCorp Seattle

January 2015 - September 2015

Laboratory Assistant:

- Timely organization, processing, and distribution of hundreds of medical samples each night for rapid testing
